

LIME
Landscaping

surround your home with beauty

This guide is all about helping you make the right choices:

- ✓ Choices that save you money;
- ✓ Choices that save you time;
- ✓ Choices that conserve water;
- ✓ Choices that increase the value of your investment.

To achieve all of this, the first choice you should make is **lime landscaping**.

Great gardens improve your quality of life. They're not a burden that has to be endured, they're a sparkling asset that adds value to your home.

Great gardens make a statement. They turn a good house into a grand estate, dusty earth into a child's wonderland and a plain backyard into an entertainer's dream.

For green thumbs, a spectacular garden is without a doubt one of life's great joys. But if you're a reluctant gardeners who would prefer to spend their weekends skiing or golfing, that's fine too.

Your garden should be low maintenance, using a well designed irrigation system, clever use of mulching and careful plant selection.

Do this and you won't be shackled to your garden, but will still achieve a great result, add value to your home, conserve water and bolster your future resale price.

Building a great garden is an artform - so don't risk disappointment, talk to Northern Victoria's best - **lime landscaping**. Read on to find out why we should be your first choice in landscaping.

gardens to suit your lifestyle

New Home Builders & Renovators

Our goal is to provide you with a 'complete' package that will remove any stress and ensure you get exactly what you're looking for. The decisions you make before and while you're building, renovating or preparing to sell your home are extremely important to the landscaping outcome.

We can advise you and implement a strategy to meet your garden and irrigation needs. **Lime Landscaping** have produced the following checklist of considerations to assist you in achieving the perfect garden:

- ⊙ Main spaces; ⊙ Lawns & type of lawn; ⊙ Courtyard;
- ⊙ Garden areas (plant selection is appropriate to where we live);
- ⊙ Garden utilities; ⊙ Paths; ⊙ Steps; ⊙ Driveways;
- ⊙ Recreation areas; ⊙ Decks; ⊙ Barbecue area;
- ⊙ Children's play area; ⊙ Swimming pool; ⊙ Rubbish bins;
- ⊙ Structural features; ⊙ Garage or carport; ⊙ Clothes line;
- ⊙ Walls, fences, gates; ⊙ Storage requirements;
- ⊙ Compost; ⊙ Irrigation requirements; ⊙ Taps (number and where); ⊙ Sprinkler system fitted with rain sensor;
- ⊙ Drainage; ⊙ External power points; ⊙ Conduit under driveways & paths; ⊙ Is the ring main and wiring adequate?;
- ⊙ Outdoor lighting; ⊙ Water features; ⊙ Pets; ⊙ Fernery;
- ⊙ Special places; ⊙ Herb or vegetable garden.

The Government is currently reviewing the way we pay for water. In the very near future, saving water will mean big dollar savings. Because we are your local, Government-approved Green Gardener, **Lime Landscaping** can build a **water-wise** garden for you that will turn the maintenance of your green, refreshing and enjoyable garden into money in your bank.

Lime Landscaping can increase your leisure time by building an automatic watering system for you. No need to stand around with the hose all day or waste time moving a sprinkler – your automatic system will fire up and shut off right on time, eliminating the risk of forgetting the hose and wasting precious water.

Our irrigation systems are designed by an Irrigation Australia Association member and feature:

- ⊙ Sprinklers selected to best suit the application;
- ⊙ A carefully planned system which separates garden and lawn and ensures the sprinklers throw away from the road, drive or house;
- ⊙ Use of drippers and sub-surface irrigation, where applicable, which allows for more water efficient watering.

Memberships

Irrigation Australia Association.
Green Gardener Association.

Services Offered
